N. Y. Central. THUESDAY, June 1. The covering of shorts, which has been the principal support the stock market has received for several days past, has cessed, and the more successful members of the bear party, who covered their shorts ten days or mere ago, have apparently entered upon another campaign. In consequence values to-day were practically at their mercy. A few of the professional traders endeavored to continue the rally which set in yesterday, and they received a little assistance from London: for a fairly good showng by the Bank of England and lower rates of discount at London resulted in moderate buying of stocks here by foreign arbitrage dealers. Efforts to advance prices, however proved futile, except in the cases of Distilling and Cattle Feeding and Reading. The re-mainder of the list must be described as heavy throughout, and many stocks, particularly those most extensively dealt in. closed ma-

terially lower.
A good deal of selling was attributed to Chieago. This surmise seems reasonable, not only because houses with close connections with Chicago were heavy sellers, but because it is becoming evident that there is urgent liquidation at that centre in local securities and in grain. Until now Chicago has escaped confessions of insolvency, except by two weak and badly managed banks, neither of which stood high in the financial community. At the same time the tone of news advices from that centre has been very confident, and a good deal of braggadocio has been printed about the strength of local financial institutions. The facts are that Chicago has of late years attracted a large amount of money from country banks in the West, the officers of which have apparently felt that it was good policy to keep their reserves as near home as possible. It is possible, too, that they have been actu-

ated in doing so by local pride. They are now beginning to find out that they have lost rather than gained by the course they have pursued; for while Chicago has been willing to take and use the funds of provincial banks when the money market was easy, it is reluctant to accommodate its country clients now that money is stringent. In consequence the banks all over the country, and particularly those at the West and South. been compelled to rely upon their New York correspondents for re-dis-sounts and similar accommodations. And naturally they are withdrawing their balances from Chicago as fast as they can. The country is learning two valuable lessons from this experience, namely, that New York street, in the sense of the banking community of this city, are identical with those of the

The decision of the management of the Plankinton Bank of Milwaukee to go into liquidation has possibly increased distrust at Chicago: but a more potent factor in unset-tling confidence at that centre is doubtless cumulative evidence that the local boom begotten by the World's Fair is certain to collapse, and that the Fair itself has hardly a show for financial success, in spite of its unparalleled attractions and possible popularity. The financial situation at Chicago deserves more serious consideration than it has generally received. Thoughtful financiers at the East are beginning to realize that the pop-ular enthusiasm regarding the Columbian Exposition which existed a few weeks ago is liable to be superseded by disappointment. and speculative markets are beginning to reflect this sober and serious view of the case.

The most extensive trading to-day was in St. Paul, at a net decline of 1 F cent. C. B. and Quincy and Rock Island, on moderate transactions, sustained net losses nearly as great The more important net declines were in General Electric, which lost nearly half of yesterday's advance. New York and New England, Missouri Pacific, Sugar Refin-ing. Union Pacific, Northern Pacific pre-ferred, Western Union, Atchison, and Chieago Gas. There was no specific news regarding any of these, except that it was rumored that property of the New England Company might be attached, as it was a few months ago, to secure the payment of a coal bill. It is learned that this danger existed, and that the company succeeded in raising \$40,000, or about two-thirds of the amount it should have paid to-day on the account re-ferred to, and thus staved off legal proceedings. It is possible that some of the selling to-day was inspired by the announcement that Mr. Me-Leod is not yet ready to retire from the Presidency of the New England Company, for his record as a railroad manager is such that it would seem to be only a question of time when he will be superseded by an officer of the

In the last hour prices yielded more easily than at any time since the early part of last month. The application for a receiver for the Domestic Sewing Machine Company, added to less tangible evidences of distrust, encouraged the bears to attack the entire list with un-usual boldness. The engagement of \$1,000,-000 gold for export on Saturday, and reports that another million or two may be required for shipment at the end of the week, intensified the feeling of uneasiness. On the other hand, it must be noted that discount at London is easier and quotably lower, a circumstance which will facilitate the renewal of a large amount of sterling loans which mature in the near future. Besides, private advices from London are of a more hopeful feeling there. This has probably been brought about by re-ceipts of specie from this side and prospects of additional consignments. Other encouraging developments are of the efforts of certain stockholders of the Distilling and Cattle Feeding Company to prevent the management from wrecking it absolutely, of large deposits of Richmond Terminal securities under the plan of reorganization, and liberal assents by security holders to the plan for readjusting the indebtedness of the Read-

ing Company. It is also learned from trustworthy sources that arrangements were com: leted to day by which the Norfolk and Western Rellway Company has funded its entire floating or bt. provided for the payment of its 6 % cent. debenture bonds, which mature at the and of the year, and also secured ample working capital. As considerable apprehension has been felt regarding the financial affairs of this company, this news is perhaps the most important of the day. In view of the distrust which has been created by the collapse of two or three of the Industrial companies, the securities of which are actively dealt in on the Stock Exchange, it seems perby the Herring-Hall-Marvin Company for its further on in this column. The closing of the Final sales compare with those of yesterday as follows:

The sale of the St. Luke's Hospital site, at Fifth avenue and Fifty-tenrth and Fifty-fith streets, was announced yesterday at \$2.400,000. The price paid was but \$100,000 less than the figure put upon the property in the beginning by the trustees, a circumstance quite unusual in a sale involving such a large amount of mency, for it is the custom to ask much more than will finally be accessed.

finally be accepted.

George Maccul och Miller, in whom as well as in Samuel D. Babcock was vested the power of selling the property, confirmed the report that the hospital had been sold for \$2,400,000. He said that he could not imagine how the fact had become known, as all the parties concerned had promised to keep the sale and the name of the purchaser secret. Though the matter had now been made public, he said, he still felt himse f bound not to reveal the name of the purchaser until be should have been released from his promise. Mr. Miller regarded the high price obtained for the property, which was bought originally for \$50,000, as significant of the stability of New York real estate as an invest-ment. He said that there had been no less than six offers of \$2,000,000 fer the property, while three higher bids, amounting to \$2,200,000, \$2,300,000, and \$2,400. OOO respectively, had been made. The last offer, he said, was the one which the trustees accepted. The name of

the purchaser was refused. Real Estate Transfers. Forsyth st. 51; Hermann Levy and wife to Emanuel Jease.

EXCISE BOARD ESTIMATES CUT. The Board of Education's Anticipations Rus Against a Stone Wall,

The Board of Estimate and Apportionment appropriated \$150,080 yesterday instead of the \$108,000 asked for the use of the Board of Excise for the year beginning May 1 last. President Andrews succeeded in having an appropriation for nine more inspectors allowed on the plea that the police never report a saloon doing business without a licens that the Excise Board has to do its own policing with its inspectors. He said he did not mean to reflect on the police. Comptroller Myers reported that he had

gone over the several appropriations for the Board of Education with President Sanger of that Board, with a view to ascertaining if any transfer could be made to make up the estimated deficiency of \$46,000 in the salaries of teachers, with the result that they could find no item that the School Board was willing to have transferred. He offered a resolution. which was unanimously adopted, calling on the Board of Education to practise the strictest economy in the use of all its funds, and in that way try to accumulate a surplus which may, by transfer, meet the deficiency.

President Sanger suggested that the salaries of absentees be held back until January next, and that the amount thus saved be covered back to the teachers in the appropriations for 1803. "We have no authority to do anything cf that sort," said Mayor Gliroy. "I will say right here that I am opposed to the holding back or cutting of school teachers' salaries, and if such action is taken by the Board of Education they alone will be respensible for it. I am willing to meet this emargency by a transfer, but the suggestion of the fund from which that transfer shall be made must come from the Board of Education, which will bear in mind that we can make no transfer from its last year's appropriation or from the appropriations for other departments."

The Rapid Transit Commissioners made a requisition for \$2.430.33 for salaries and expenses for May, which caused the Mayor to exclaim:

"Why is the city put to these expenses for economy in the use of all its funds, and in that

exclaim:
"Why is the city put to these expenses for nothing? The Commission seems to be making no progress toward giving the city rapid transit."
The application was referred to Comptroller

Myers.
Attorney-General Resendale and State Comp-Attorney-General Rosendale and State Competroller Campbell were present at the meeting. They were interested in the \$1,000,000 of bonds to be issued to pay for the land resamily under the control of the State Emigration Commission, which has been deeded to the city. This includes 108 acres on Ward's Island, and four acres at Seguin Point, Staten Island, and four acres of an old burial ground at New Brighton.

W. E. D. Stokes and W. R. Martin Plead Not Guitty, Elihu Root and George H. Adams, represent-

ing W. E. D. Stokes and W. B. Martin. indicted for libelling Edward S. Stokes, appeared be-fore Judge Cowing yesterday in the General Seasions, and, in behalf of their clients; plend-ed not guilty.

## THE PHILADELPHIA AND READ 8,000 ING RAILROAD COMPANY,

NO. SET BOUTH FOURTH ST., PHILA.

SUMMARY OF PLAN OF READJUSTMENT

The Company proposes to create an issue of Thirty year Colleteral Trust 6 per cent. Gold Bonds of the par value of \$30,000,000 to be secured by shares and bends coal and coal accounts yielding a present revenue of \$2,125,686, and after 1898, \$2,540,156. OOQ.000 will now be issued, the proceeds of which will take up all of 'he doating indebtedness, amounting to \$20,000,000. This issue is conditioned upon the reduction of the rentals and guarantees contracted since 1888 to the actual earnings of the properties leased and guaranteed and upon an agreement by the holders of the general mortgage bonds to sell their coupous as they mature for cash, at par, to a trustee in case the 25,000 earnings are not sufficient to pay them when they fall due, to be made the basis of an issue of coupen frust certificates, bearing 6 per cent. Interest, and redeem-able so soon as the Company has funds sufficient for 17,000 the purpose after paying the interest on the General Mortgage. It is also conditioned upon an agreement by the stockholders to transfer their shares to Veiling by the stockholders to transfer their shares to Veiling Trustees for seven years. Rubscriptions to the Collat-eral Trust Bonds and Coupon Trust Certificates have been secured from outside parties, so that the stock-holders and bondbolders are merely saked to give their assent to said agreements without the obligation to

assent to said agreements without the obligation to pay any charge or assessment whatever.

By reference to the plan and statement, it will be seen that, while the plan does not involve any increase in the principal of the indebtedness of the Company, beyond the discount on the \$22,000,000 of bonds now issued, it will effect a large saving in the annual cost of carrying the floating debt, and that the floating indebtedness thus to be taken up consider a saving and the same of the saving and the same of the saving and the saving and the saving and saving a 25,000 85,000 sists either of claims for materials and supplies and interest on prior mortgages, for all of which Re-ceivers' Certificates, prior in lien to the General Mortgage, might be issued, or is secured by the piedge of the shares and bonds, or coal and coal acsecounts and rolling stock, worth more than the amount borrowed on them, so that it is of a nature which would have to be provided for under any scheme

f reorganization.

As to the sale of the General Mortgage Coupons it is also explained that the Company covenants no to divert any of the earnings to any other purpose to divert any of the earnings to any other purposes than the payment of the operating expenses and prior interest charges, but remains bound to pay the coupons on the General Mortgage at maturity, in cash, if in funds to do so, and is further bound to take up the Coupon Trust Certificates and cancel them out of the first surplus carnings after the payment of the current interest on the General Mortgage. The holders of General Mortgage Coupons will only be control to sell the prevent a default at the be required to sell to prevent a default at the ma-turity of each coupon, and the coupons will only be kept alive till the earnings are sufficient to pay them. During the last five years the interest on the Genera fortgage Bonds, as well as interest upon the floating

he Income Mortgage Bonds.

As to the leases and guarantees made after 1888 they are all subject to the Income Mortgages, and the promise of the Reading Company is, therefore, of no value, though the connection with the Reading system

s of mutual advantage.

The length of the Voting Trust is unusual, but the subscriptions to the Collateral Trust Bonds and Coupon Trust "crtificates could only be secured by a trust which insured a stable and conservative management, without contest, for that period. without contest, for that period.

All existing rights and priorities of all creditors are
thus preserved, without change, sacrifice, or assessment. The holders of the shares and bonds can sign

the agreement without making any deposit, so that their use as collateral will not be interrupted or inter-fered with, and, as the coupons are only to be sold and detached at maturity, the bonds will continue a good delivery.

Certificates of stock should be presented to b

tures to the agreement are taken, but the certificates

will not be transferred to the Voting Trustees or Gen declared operative.
The Lehigh Valley Railroad Company has aiready agreed to make the necessary reduction in its mini-mum fixed rental in case the plan should be adopted. Copies of the plan and explanatory statements, and of the agreements to be signed by the stockholders and

JOSEPH S. HARRIS.

OFFICE OF THE

bondbolders can be, obtained upon application at the

PHILADELPHIA AND READING RAILROAD COMPANY,

227 SOUTH FOURTH STREET.

To the Holders of the General Mortgage Bonds of the Philadelphia and Reading Railroad Company.

The holders of the general mortgage bonds of the Philadelphia and Reading Railroad Company are hereby requested to call at the office of the company, and to sign the proposed agreement between the Philadelphia and Reading Railroad Company, the ennsylvania Company for Insurances on Lives and Granting Annuities, and the bolders of the general mortgage bonds, for the sale to the said Pennsylvania Company for Insurances on Lives and Granting Annuties, trustee, for cash, at par, of ten coupons, or of the registered interest as they mature, beginning with that of July 1, 1893, and including that of Jan 1, 1898, to be held as security for the proposed issue of coupon trust certificates, in accordance with the provisions of the plan for the readjustment of the affairs of the Philade phia and Reading Railroad Company and the Phila-delphia and Reading Coal and Iron Company, and the funding of the floating and other indebtedness now in

option to take said certificates at par, instead of selling the coupons or interest, and makes the certificates re-deemable at 105 per cent, and accrued interest out of the first moneys applicable thereto. Notice is hereby given that in order that the plan may become operative, and be carried into effect, it per cent. of the general mortgage bonds should become parties to the said agreement, on or before the 21st day of June, 1893, or the plan will be aban-

default. The agreement also gives the boudholders the

doned.

Copies of the said plan and explanatory statement, and of the proposed agreement with the general mortgage bondholders, can be obtained at the offices of the company, 227 South Fourth st., Philadelphia: the Farmers' Loan and Trust Company, New York, and Dashwood House, Old Broad st., London.

By order of the Board of Managers JOSEPH S. HARRIS.

President.

OFFICE OF THE PHILADELPHIA READING

RAILROAD COMPANY,

237 SOUTH FOURTH ST. Philadelphia, May 29, 1993, To the Stockholders of the Philadel-

phia and Reading Railroad Company.

Railroad Company are requested to call at the office of the company and present their certificates to be stamped with the word "assented," and to affix their signatures to an agreement to transfer their certifi-cates of stock to five trustees, to be held by them for cates of stock to five trustees, to be held by them for the term of seven years, upon the terms and for the purposes set out in the proposed agreement between the Philadelphia and Reading Ratiroad Company and its stockholders. Said agreement is made one of the conditions of a plan submitted by the Board of Man-agers for the readjustment of the affairs of the Phila-delphia and Reading Railroad Company and the Phila-delphia and Reading Coal and Iron Company, and the funding of the floating and other indebtedness now in default.

Kolice is hereby given that in order that 'he plan may become operative, and be carried into effect, it is necessary that the holders of at least top er cent. of the shares of the stock of the Philadelphia and Reading Railroad Company should become parties to the said agreement, on or before the 21st day of Juna. 1898, or the plan will be abandoned.

Copies of the said plan and explanatory statement, and of the proposed agreement to be aigned by the glockholders, can be obtained at the offices of the company, 257 South Fourth et., Paliadelphia; the Farmers'

Finnncial.
